

Additional analysis by Neighbourhood Planning Group member Question 23

Q23 Should new housing development include a network of footpaths and cyclepaths to provide easy access to shops and local services, good connections with public transport and integrated with existing public rights of way?

349 responses

11 did not answer

Yes 302

No 23

No development 15

12 mentioned the value of these to reduce traffic congestion

9 mentioned that they should connect communities and green spaces

12 mentioned the need for a connection between Richings Park (station) and Iver

The issue of who would maintain these paths was raised in many responses.
