

Q6 Are there any existing public open spaces that are not well used and could be used for development? If so, which ones and what type of development would be appropriate?

SITES MENTIONED	No of mentions	PURPOSE - if mentioned	
Gams	9	Car park and possibly some housing.	
Evreham	7	School, housing	
Station Area (Fields north?)	7	Housing	
TBP	4		
Brownfield	3		
Trading estate	3	Relief Road	
recs improve	lv 1	Tennis courts/badminton courts etc	
recs develop	IH & lv 4	Housing, school	
allotments	1		
IVJS field	2	All weather football pitches	
R/O High st.	2	Should be converted into	
swan meadow	2		
Court Lane Trading Estate	1	Housing	
Thorney Park	1	.. redeveloped for better use	
coppins land	1		
Cemex	1		
Pinewood rd quarry	1	Housing for local families	
East of Mansion Lane	1	Small housing developments	
BCC depot A412	1	Housing	

Comments in support of retaining open space, though some of those suggested 'open space' included the recreation grounds.

1. No development on PUBLIC open spaces 12
2. If there are such spaces not well used, they should be cleaned up and keep it. Put back to countryside.
3. Retain all open spaces and let the residents know where they are. Important for people new to village
4. Any public open space should be kept - and if not being used - then to turn into recreation grounds or something for nature to develop.
5. Prefer to protect, Use industrial areas for development. By station?
6. Where public spaces are under-used, we should try to establish why and then improve facilities
7. Development in the way of housing or car parking is totally unacceptable
8. Ground near iver station for car parking. 4 (Now in progress)
9. Open space on/along Slough Road in Iver Heath - turn into a park
10. land which does not fully satisfy the purposes of the Green Belt as defined in national policy [DW Homes
11. The field adjacent to the motorway at the rear of housing and general services with adequate parking space.
12. Fourell paddock as not accessible to the public 2

IRRELEVANT

Iver Heath Fields could be better used as a public open space for get together events, such as community parties

Iver Recreation Ground: Play equipment, add tea rooms, update toilets. Make it a place people travel to and stay for longer.

The gardens of large size

Wood Lane, large gardens. Plots of land could be sold by homeowners.

We need youth clubs and gyms

Only for new roads as by-passes or replacement roads.

IVER HEATH NEED A COMMUNITY CENTRE

If there are any then it should allow parking and the roads capable of taking the traffic

A well maintained cycle and walking path from the village down Thorney Lane would be good. Quite often after rain it is impossible to use, and dangerously slippery.

good development would be a recreational park for children or even a general park for picnics or walking etc.

Iver rec ground needs to be updated. It isn't safe and lacks enough playground activities

Thorney Park is under utilised. It's a nice area for wild life and dog walking/fishing but could be redeveloped for better use. Unfortunately, it was developed previously but quickly became a local 'hot spot' and then fell into disrepair.
