

13

Response ID	Are there areas of The Ivers where a community shop is needed to serve local residents? If so, please say where.	Final Result				412
		Blanks	Yes	No	Other	
		172	56	118	66	100.00%
1	Not really	41.75%	13.59%	28.64%	16.02%	
5	Richings Park and Iver, like Cornerstone used to be.					
7	Somewhere in Iver Heat or the Police Station site in Iver.					
13	Yes - along Swallow Street, near Flowerland or the Evreham Centre.					
19	Not for Mansion Lane.					
21	The shops are situated well for local residents but no parking for outside/passing custom					
24	No. Pretty well provided for already.					
25	There are plenty of shops. No more are needed.					
26	Not sure what it is. Perhaps explanation?					
27	Leave well alone.					
37	I think we have adequate services					
38	We are served well but others are not					
42	None that I can think of now that Iver and Iver Heath have a co-op					
44	More shops in Iver Village.					
47	The old police station would work.					
48	Near the co-op					
50	no, local shops are around the village and I am happy with that					
55	Chemists, Post Office, Co-op					
56	What is a community shop??					
61	We have sufficient					
65	Support the ones that already exist. We are well served					
66	Incorporate within or near existing and future sheltered accommodation.					
70	Our area is adequate.					
75	We already have local library and village halls					
77	What is a community shop?					
86	Sort out the old AA Store on corner of roundabout					
88	Yes, why not, on the high street.					
93	Definitely - maybe where Chequers was? Or the corner shop? Both drelict, a mess. Community shop good.					
98	Privately owned coffee shop/café.					
107	Swallow Street.					
115	We need - Hardware Butcher baker Develop Shopping (existing) Area					
116	Iver High Street					
126	NO. I THINK THE IVERS ARE WELL SERVED FOR SHOPS, BUT THOSE AREAS NEED HELP: TIDYING/CLEANING					
128	They have enough to serve local residents now in Iver and Iver Heath already.					
130	Retain existing shops.					
132	Maybe - but not in Richings Park					

134	- NOT NEEDED WE HAVE ENOUGH.
141	Near the Co Op Parade
145	Depends where new developments are to be situated and if current shops would be accessible
146	IVER HIGH STREET
148	Since the Co-op in Iver opened some small shops have closed. Uxbridge is the nearest town centre with several supermarkets, Slough also has supermarkets. A community shop would find it hard to compete.
149	NOT SURE WHAT A COMMUNITY SHOP PROVIDES?
152	A13. A bank branch would be beneficial but probably unrealistic, since the ones in Langley appear to be closing.
153	IVER VILLAGE IA QUITE WELL PROVIDED FOR BUT THE AREA BETWEEN IVER HIGH ST & CO OP IVER HEATH COULD US A SHOP
156	NO. WE ALSO DO NOT NEED ANY MORE LORRY TO SERVICE THE SHOP'S
157	RICHINGS PARK
159	Here in Richings Park we are covered by essential shops can,t justify Butchers & Bakers
173	Don't know what a "community shop" is.
178	The local corner shop has gone maybe this could be replaced as a small coop for people with mobility issues.
186	Had to research this one (Community Shop is a social enterprise that is empowering individuals and building stronger communities, by realising the social potential of surplus food.) answer - No
191	Trenches Lane residential park.
194	Depends on what is classified as a Community Shop, and what it would dol
200	Would like you to look after the ones we have already and add to them, not build new estates.
202	No. There are plenty of co-op/newsagent shops that sell provisions.
206	Our requirements are already met in my opinion.
219	Thorney Lane South shops should be developed. Where there are any new developments then consideration must be given to whether existing shops are accessible or whether more are needed. Each proposed plan should be considered on its merit.
231	Yes, we need a bakers and we need a coffee lounge to sit in and meet our friends.
238	There are already plenty within the vicinity of the villages
250	The late night shop on the roundabout (by Bangors Road south) seems to have shut down

251	In Richings Park the Cornerstone Community Shop is greatly missed by members of the local community especially as there are empty shop units along the parade.
252	A new 'Cornerstone' community shop in Richings Park
256	No, this is completely unnecessary. Most people have the internet these days and can access stuff online if needed.
257	Not sure
259	Even though I am in my 70's I personally am still able to get to my local shop, doctors, library etc, ask me again in 10 years time how I feel!
266	A decent hardware and electrical store for local residents
267	Iver High Street
281	I am not sure what is meant by a community shop. Nice cafe would be good, proper bakery would be nice. However, they would not survive unless there is somewhere to park.
287	We already have enough shops
301	Depends what you mean by community shop? The ones we have now help but the parking to use them really needs sorting out
306	No, we have enough shops.
307	Firstly I think the High Street needs to be better used before extra shops are introduced within the area.
318	a community shop somewhere along Swallow Street would be beneficial
331	WHAT IS A COMMUNITY SHOP? Examples should be given.
333	Same as above.
347	I feel the reintroduction of a bakery is a must. However if this were introduced it would need to concentrate on good quality bread rolls and cakes and pastries rather than providing just filled rolls
351	Not sure what a community shop is? Who runs it, what would it sell? We already have the Co op in both Iver Heath & Iver.
356	No, commercial retail shops have the Ivers covered
358	A indoor soft play for young children.
361	we have all that we need
367	Not really. There are the two Co-Ops and the smaller general stores in Iver and Iver Heath. I am not sure about Richings Park as I rarely have reason to go there. For those with limited transport, the majority of people could walk to a food shop in a relatively short time.
369	What on earth is a community shop....sounds communist
370	Perhaps in the smaller communities within the Parish?

375	probably in the new development south of the high st
376	There is certainly a need
388	A petrol station nearby!
389	Maybe it'd be useful to set it up in one of the empty shop units in Richings Park
392	I have not come across a community shop but in flowerland there is a local fruit stall. We do need more community shop that would bring people in from outside too promoting the village feeling.
393	DON'T BELIEVE SO.
396	With more and more elderly in Richings Park, a hub is required for the community to meet.
402	We had a wonderful community shop at Cornerstone and it was used very well by those that used it and I would love a similar shop to return however I do not know how a shop would be viable.
407	Not that I am aware of.
409	Coop
429	Richings Park as there is very little public transport
465	Yes, more shops to serve the community in general would be welcome as the area feels derelict and we need to attract more aspirational young families
467	Yes help older generation
468	Not aware of any such demand
480	Yes. Richings Park could do with a dedicated library
482	I'd love to see a coffee shop in Richings Park.
485	Richings park needs more shops. Some empty shops are turning into flats which reduces the footprint
486	A bakery on Bathurst Walk.
504	Bring back libraries
515	Trewarden
516	Definitely in the new development south of the High Street
517	Don't know
518	In the Village High Street
521	High Street, Iver. Where the Midland Bank used to be and has remained empty and becoming an eyesore.
523	Both Iver and Iver Heath shops are vital to elderly local residents.
527	The Slough Road convenience store could be improved.
533	Iver Flowerland
537	Along the High Street
544	Iver Village centre needs a post office counter (maybe in Co-op?) Recent loss of Wingroves Farm shop detrimental to the community.
553	We have enough retail in Slough Road

556	Swallow Street, halfway between Iver Heath and Iver
559	Yes. In Richings Park we had a Christian charity shop - Cornerstone. Sadly it closed due to lack of takeover staff
561	Answer Probably in the new development south of the High Street
569	Answer Yes read above as it costs so much to get to Slough/Uxbridge not everyone can afford to get there
574	Answer Iver is a dying retail area. Probably not helped by 'online' shopping.
575	Answer The shops along/on the Slough Road could be improved
576	Answer Any new housing development south of the High Street that brings a much needed relief road
579	Answer Not particularly, there is already one in Richings Park
584	On the main High Street
