4	Community Hub could include new library					
7	Things for young people/young adults. There is very little for them.					
13	A place with ample parking, disabled access, outdoor space eg Evreham.					
14	Increase use of Evreham and more effective police involvement.					
17	More consultation with local members/residents needed					
21	A police presence should be increased due to the increase in local crime					
24	Don't know. No idea what the 'Parish Council Community Hub' is? Never heard of it!					
25	Opposite Co-op, Iver High Street - a new Doctors Surgery. Pull down the 2 dilapidated buildings.					
26	Redevelop Evreham Centre. Flowerland would benefit from soft play.					
29	Good idea but is there enough space? This is important.					
32	Senior schools so children don't have to be shipped out to other areas.					
34	Evreham Centre. I went there myself and was shocked when it closed. It should be a school again.					
35	More parks					
40	a medical facility in one of the empty shops in Richings park would cut down on car usage needed to reach the surgery in Iver village					
47	Police presence.					
50	Community bus service.					
51	Scouts Hall					
52	Evreham Centre					
55	If you do not drive its an isolated place. Pavements not clear, minimal lighting and no transport after 8pm.					
56	The 'polic station' is the ideal central location for a library/community centre for information, etc.					
58	Expand Evreham Centre					
60	The community hub sounds like a good idea. Somewhere central.					
61	I think we have all we need					
68	A library					
70	Within easy access to all.					
71	A pool at the Evreham Centre.					
78	In the recreation ground at Iver Heath, kiddies play stuff is not great.					
83	More computers in the library to assist with high levels of study					

Question 17

86	Issues discussed already
93	Shocking idea to waste £500,000 of residents money and depleting police presence. How will this help residents?
99	Parish Council Community Hub??
107	Not happy to Buy Police Station for Council Offices when community needs so much more:- New Roads - Potholes are nightmare.
111	I AM NOT ON LINE SO I DO NOT KNOW WHAT THE COMMUNITY HUB IS
112	Via s 106 on large development.
116	Shuttle bus to Iver Station from High Street, as currently no public transport. Also Windows & doors at the waiting rooms at the station desperately needed, as cold winter approaches.
122	WHAT IS THAT?
124	I DO NOT FEEL THAT "COMMUNITY FACILITIES" ARE MISSING. NEITHER DO I FEEL THE NEED FOR A "COMMUNITY HUB"
126	IF THE IVER PARISH COUNCIL ARE GOING TO MOVE INTO NEW PREMISES MAYBE SOME OF THE AREA COULD BE USED AS A DROP IN CENTRE.
130	Library (in disused Supermarket) in Richings Park
134	WE WOULD LIKE TO SEE THE POLICE TOURING the AREA AND BASED LOCALLY.
136	POLICE STATION FACILITY EMPLOYING A ROAD CLEANER & LITTER PICKER, JUST FOR THIS AREA, WHICH WE HAD PREVIOUSLY.
142	Opticians in vacant shop in High Street. Bank - vacant shop in High Street.
145	Any Community Hub should have access for whole communities - by public transport. I.e Richings Park & Iver Heath residents
147	A library for Iver in the proposed Parish Council community hub.
148	Evreham has potential for a school. There is a diagnostic centre on the Cressex business park, something similar could be provided on The Ridgeway Trading Estate. The community hub could provide library space, room for CA, officers from SBDC and BCC for appointments with residents needing help. Neighbourhood police team are expected to have a base there.
150	VILLAGE
151	They should be maintained to a high standard with reasonable cost.

152	A17. If the parish council staff are to be re-located in the old police station, there is likely to be limited space available for a community hub in that building. However Wendy Matthews has stated that the old police station will provide space for the police office, a library, information hub, Citizens' Advice, etc. With the current configuration of the building it is not clear where the space will be found for all these activities, so I presume there is budget available for builders to reconfigure the inside of the building. Another possibility is that the additional facilities are provided in the existing council offices which means that it could not be let out as a domestic residence (which I understood was part of the business plan).
153	A NEW SECONDARY SCHOOL ON EVREHAM SITE. WE ALSO REQUIRE MORE HEALTH PROVISION
155	A library within the hub would be beneficial.
156	NO MORE NEEDED
157	RICHINGS PARK
159	Sorry we are good neighbours and very friendly but not community hub type people
173	What is a "community hub". If you are referring to the current police station. I believe there is far better uses for all the money and debt that is going to be raised in order to pay for this misguided project. I see no value nor benefit to the Ivers for this hub, and encourage IPC to address the problems that the Ivers are currently facing. And I note that the list of the problems in the Ivers, though long, does not include a lack of a "community hub". Traffic calming through the Iver Conservation area, road safety around schools, cleaning of public areas, weeding of roads and removal of mounds of grit piled up by kerbs, parking in the village... resolve these issues first!
178	The community Hub could house the youth Club depending on how big it is maybe even a local Stage coach group or a drama class run by local theatre group. Linking to Pinewood ;-)
180	Library, not a bus.
186	community hub what information is there on this ? I am making the assumption that this may mean the building formerly known as Iver Police Station The Parish council would obviously use this , and a touch down facility for any officers on duty in the area . Citizens advice bureau should it move from St Peters Centre This would depend on parking facilities again. Iver Heath residents live up to 2 1/2 miles away from this site , as do Richings Park. No easy public transport and too far to walk for some

189	The Parish Council Community Hub should be held weekly in one of the local halls or at The Everham Centre. A Parish Council Surgery should be held weekly. Meet the Parish Councillors at a coffee morning or wine and cheese evening would be a good idea. Unfortunately The Parish Council has become very detached from the residents it is supposed to represent. After being a Parish Councillor for 16 years in another Parish - I am appalled at the lack of communication and understanding of local residents needs.
191	The proposed Parish Council community hub has no relevance yet as its purpose and function is yet to be defined by Parish Council. This is just a blatant attempt to justify an unnecessary and largely unwanted capital purchase utilising funds hoarded from rates that should be invested in the betterment of the community as a whole rather than buying premises.
194	A community hub is simply another meeting place and we already have enough of those that are already established and used
200	Near the Parish Hall.
202	I don't feel there is any need for a community hub. There is nothing it can bring that cannot be/is not provided elsewhere and there are many other things that money can be spent on that are actually needed.
204	Not in the old police station...
210	I have no idea what the Parish Council community hub is
212	A better flow of sharing information between the Parish Council and the community it works for, would greatly improve the sense of belonging. I'm afraid it seems a bit of a "them and us position" at present.
214	Evreham school should be converted back into a senior school, or an alternative site in Iver found.
218	No doubt this refers to what was the Police Station. I strongly oppose its purchase at a vastly inflated rate. There are plenty of other halls etc available for people to come together - hut in the rec (the one with the expensive loan repayments)for example. Again parking is a problem in the high street and the rec car park is being extended so a better solution. How? - use some of the public money that's been stashed away for the purchase of a Police Station (without police officers).

219	A community hub in Iver village would not be easily accessible by public transport - either for adults, young people or those with small children where they do not have a family car available during the daytime. The bus service from Iver Heath takes quite a while to reach Iver High Street and the bus times are not frequent enough to make it a convenient option. There is no public transport from Richings Park. Would there be sufficient car parking for this Hub? Access to Iver station is also impossible direct from Iver Heath and Iver unless you walk, cycle or own a car, and then there is big problems to park (cars and cycles).
222	WHEN THE IVER HEATH LIBRARY BECAME A COMMUNITY LIBRARY AS A RESULT OF COUNCIL COST CUTTING, IT WAS STATED THAT THE INTENTION WAS THAT IT WOULD BECOME THE COMMUNITY HUB.
223	NOT, in the police station; it is not fit for purpose. Midland bank has been empty for many years; tips tops tans??
225	One of the larger developments for housing, should also include leisure facility.
231	Library could be provided within the village hall or in the Bull. A playgroup and toddler reading could be provided in the bakery
239	Children's play area facilities should be provided at Richings Park within walking distance of existing residential development and the amenities near the station. Land south of Richings Way, also known as Fourells Paddock, offers the opportunity to provide new residential development alongside associated open space and a children's play area.
242	I have no idea what a 'community hub' is or how it can be of use.
251	The community facilities should be provided centrally for all areas of Iver, so adjacent to Iver High Street or at Evreham Sports Centre.
252	In Richings Park, funds would be needed to rent one of the current empty shops.
254	Citizens Advice Centre, community meeting room with wifi for small groups (up to 15) for clubs and charities to use. Potential drop in centre facility delivered with other charity and council organisations to access support and information
256	We do not need a community hub, we have numerous halls already, we also have the evreham centre. A community hub is a ridiculous idea, and completely unnecessary for the area
259	Recently I was at the local Library in Iver Heath and saw a little group of ladies at some sort of coffee morning - these type of 'get together' are far better than large organised facilities, and places where they can be arranged should be encouraged.

265	Everham centre.
267	Around Iver High Street.
268	For the 'where' - In Iver High Street. As to the 'how', I have no suggestions; not least because I have never before heard of the Parish Council community hub, and can find no details of it on the Parish Council's website.
270	I would support any new community facilities (as listed above) within the Parish Council community hub, which is a fantastic proposal.
278	The Evreham Centre and Richings Park Leisure centre
280	Iver Rec, On the way from High Street to the Station. Near the Station. See above
281	I would be happy for any community facilities to be provided in the proposed Parish Council hub.
285	On the Evreham Site
287	Gyms etc should be provided by the private sector - not the parish council's responsibility
288	Cannot think of any - Slough, Bridge are an easy commute, so why would we now need additional shops in Ivers?
289	Can always be at the Evreham Adult Learning Centre. There is room for a HUB there.
291	I am all for buying the police station and providing a community hub. I think it will benefit the whole community and be an invaluable resource.
301	More use of the village halls...after all this should be the heart of the community
306	Perhaps near where it was before in Richings Park.
307	Possible within the high street using shops that have closed down ?
316	There should be the library at the hub, access to information from the internet.
317	Playground in Richings Park
318	I don't know about the proposed Parish Council Community Hub
319	They should not. If anything must be provided, it should have adequate car parking.
320	With new housing would come a need for new facilities to ensure children have their education covered and that the current shops are not overburdened.
324	Another pub!
326	I have no idea what the Parish Council community hub is. However, I would not want the Parish having the responsibility to provide key communities facilities, as District and County are being paid for such services already.
331	OUTDOOR EVENTS could organised on IVER HEATH FIELDS. This area is enclosed and safe with relatively easy access for residents and visitors. INDOOR EVENTS are already held in the Village Hall.
334	Village hall

337	Eversham centre
338	Nothing else is missing
343	Any new community facilities should be provided in a sustainable location where the wider community can easily access them. They should ideally be close to the centre of the villages and near the other existing community facilities.
344	These could be integrated as part of the Parish Council community hub.
351	A community hub sounds like a contrived idea to divert from the fact that Scouts, Guides, Village Halls and existing facilities already exist. Clubs already exist and do not need to be started by the council.
356	More community facilities should be provided by developers lead by the Parish as to what is wanted.
358	Indoor soft play for young children - near flowerland on norwood lane. police station to remain in the high street. doctor's surgery - anywhere in around Iver village.
361	what the damn point - where the heck is anyone going to aprk to use your hub !!!! Get real please, you cannot reolve the prime issue parkign and HGVs - you are obsessed with a hub in an area where parkign is a nightmare -why are the shops and coffee shop gone - it is blarringly obvious....we do not need another under used library or something which 90% of people cannot get to easily due to where it is located
365	Use of the existing building and not purchasing the police station at a ridiculous cost. This money should be spent on other areas of the villages.
366	Secondary School should be located on land immediately south of Iver High St and paid for by developers.
367	Not sure what is proposed for the the Parish Council community hub so can't comment. To be honest I don't know whether i know about all the community facilities available currently
369	Stop wasting money on this
370	In addition to provision for the police, possible facilities would be a library, to include a historical archive, small meeting room available for local groups, Citizens Advice Bureau.
372	Secondary school.....where the old one was !!
373	Use the money for selling out Iver Heath fields to make Everham a school to support all the future houses being built
374	Anywhere with adequate parking which the proposed site for the hub does not have. A community hub should Have internet, printing, copying and a space for people to meet. It's therefore more suited to be added to a coffee shop or our library.

375	a school could be built in mr wingroves farm land that he wishes to sell and also a new bypass
385	Waste of money
389	I have no information regarding the hub
390	Make use of richings park sports club. They have parking, space, unused during week days.
392	Where the council has open green spaces instead of new homes make a private primary school or a grammar school with parking not in resident area.
398	We do not need further bricks and mortar facilities. To encourage access to services other methods should be used such as; outreach / mobile Council services one day per week at each village location for those who need in person services; online and / or over the phone for everything
402	Build a secondary school at evrehem and develop the current centre so that it offers better facilities for all. Alternatively a secondary school could easily be built on land at Huntsmoor Park Farm, access is already there and there is plenty of space without affecting the requirements of the Farm. I understand that the council already own the land Regarding the parish council community hub - this is quite a leading question. I don't believe this is needed. The council need to better support and promote the existing facilities put on by volunteers and other local organisations - The Childrens Centre, St Peters & St Leonard's Churches, King's Church
405	YOUTH CLUBS.
407	See my answers to Q15 and Q16. I am not familiar with the discussions leading to the proposal to purchase the entire police station site, so there may be issues I'm unaware of; but I wonder whether a better return on the loan would be obtained by funding (part-time) a person to drive and promote community activities and ensure better use of existing facilities.
409	Parish aren't worth their salt.
416	Pop-up provision in empty shops
417	Close to station.
431	Iver Heath is missing a hub: a heart and centre. The area around the Co-op is the closest but used mainly by folks working at or going to and from Pinewood Studios and up and down the A412. But it's getting overgrown with weeds, there's rubbish on the roads and footpaths, and is a traffic bottle-neck.

435	No community facilities are missing. Iver Parish Council should concentrate on enhancing the neighbourhood, the environs and meeting the real needs of residents instead of pushing an unnecessary Parish Council Community Hub which has little to no backing from residents, has no business case and would commit residents to years of unnecessarily high rates. THE PROPOSED PARISH COUNCIL COMMUNITY HUB IS A VANITY PROJECT BY THE CURRENT COUNCIL AND IS NOT SUPPORTED BY LOCAL RESIDENTS.
438	In Richings Park there is no playground for children
446	Q17 None The Council offices,,, maybe they should be incorporated with my ideas re school building. Or the police station, good idea but not for £750.000 . . . shared ?? ?
448	There are shops in Bathurst Walk which are empty, so here would be appropriate.
451	Through advertising and using some of the parish council tax payment
453	Near Iver high street
459	Free school could be set up. This was proposed a few years ago.
460	I don't know where a secondary school could be provided. I do not have enough information about the proposed Parish Council community hub to make any informed comment on this.
464	Adequate parking in Iver High Street, for shops and church.
467	Better gym
468	Library, CAB, community groups and providers
471	I think it is very wrong to be paying vast amount of public money to purchase a building for the Parish council. There are currently three office staff and 14 Councillors, so why do they need a whole building. Surely they could rent a meeting room for council meetings
477	Maybe youth services could be included in the hub. The question is would enough use them to make it cost effective.
480	Library in a Richings Park can occupy vacant shop unit
482	A children's play area in the Richins Park sports club, if that's possible. I appreciate it's Private?
483	Additional community facilities could be located within the facilities of a 5-18 Academy I do not support the purchase of the old Police Station by the Parish Council.
485	I think people aren't aware of all facilities available. There's St Leonard's church hall that could be used by locals. I think locals will use facilities if central and easily accessible
486	A new secondary school
488	See 16 A community Hub in Iver will not fairly serve the needs of Iver Heath residents !!

498	I would suggest that the council learn from local areas who are able to provide maintained roads, drains and street lighting. The best way to provide a service is to learn from people who are already doing it.
500	Anywhere in Iver is closer than Chalfont or Burnham
503	Any space for extra development and hub down Grange Way?
504	Libraries and coffee shops Police Station debacle is outrageous!
506	Evreham Centre
511	Do not agree with the purchase of the old police station when there are far more appropriate things for the money to be spent on.
512	Community Hub Meeting Room For Hire Info on what the various Councils do Advertise meetings for those who do not use computers
514	Enough facilities Kings Church Hall Evreham Centre St Peters Centre
515	St Peters Centre
517	I really don't know what the community hub is? Is it the Iver Police Station that the Parish Council is buying? Is that good use of council tax?
519	Surely the potential use of a community hub should have been discussed and scoped before the decision was take to buy the premises?
520	I cannot see that the Police Station can provide any useful spaceafter the rooms are used for the council
524	Childrens Centre if it is closed by BCC. Royal Mail collection point as it is currently Slough
528	I have never heard of this proposal and no information in available when I search your website so I cannot answer your question
531	As regards the lack of a public swimming pool, how about developing the Evreham Centre more. There is land to the left-hand side of it that does seem to be used for anything! I can't comment or answer on the proposed Parish Council Community Hub as I have not read or seen anything about it.
532	Bus service from Richings Park to Iver village
534	I have no issue with the proposed Police Station purchase. It keeps tax payers money in the system. Iver is expensive now!
536	Not interested in community services and certainly NOT a Parish Community hub. What a shame the Parish Council didn't see fit to send put a questionnaire regarding the purchase of the Police Station. A criminal waste of taxpayers money and a complete lack of regard towards residents opinions and concerns
540	n/a Not aware of any community hub
544	Children's play area on Richings Sports club/site. No mention on IPC web site. What is this?

549	I think Evreham should be converted back to a secondary school.
552	There is not enough places for a range of ages to meet up.
553	HOUSING
559	Central place in each village, such as mentioned in Q13, where residents can meet and chat and exchange ideas etc
562	Answer Swimming in Black Park lake to be re-established
563	Answer The Bull, Evreham Centre. Not sure what demands are
564	Answer Outdoor table tennis table and outdoor gym needed
565	Answer Iver relief road funded by developer of new development
567	Answer I would like to see Iver without Parish Council
568	Answer Library, computer internet hub, citizens advice bureau
569	Answer May keep teenagers off streets and doing trouble things
570	Answer All over Ivers especially Iver Heath
574	Answer What on earth is a community hub. Suggest spending money on more important projects i.e. traffic and parking
576	Answer A Parish Council community hub idea is a good one. Any format would be supported
579	Answer Village Hall would be appropriate for a library. Bank on the High Street on old bank site. I do not see a need for a hub!
580	Unable to find any details of this at all.
