

Response ID	Which open spaces in and immediately around The Ivers are important to you and why? Eg. for cycling, walking, fishing, boating	Final Result				412
		Blanks	Yes	No	Other	
		52	0	0	360	100.00%
1	National parks for family walks	12.62%	0.00%	0.00%	87.38%	
4	All parks - recreation grounds					
5	Playing fields in Iver. Areas around the canal, Little Britain.					
6	Playing fields in Iver. Areas around the canal, Little Britain.					
7	Black Park, Langley Park. Iver Heath Fields, Iver Nature Reserve, Iver and Iver Heath Recreation Grounds.					
8	All public high roads. All open spaces for nature preservation.					
9	Yes, cycling, walking.					
11	All are important for everyone. People need open spaces where they live.					
12	Parks in and around Iver.					
13	Black Park, Langley Park, Iver Heath field, for walking, cycling, jogging and meeting friends.					
14	All open spaces are important.					
15	Footpaths for walking					
16	Black Park, Langley Park - cycling, walking.					
17	All!!					
18	Black Park , Langley Park					
19	All of them. Langley Park, Black Park, Recreation grounds.					
20	Parks and fisheries. River needs attention for overgrowth but these areas are precious.					
21	Open spaces are important for local leisure activities					
22	Langley and Black Park, Recreation Grounds, land at Swan Lane.					
23	I do not find getting about easy because of mobility and sight problems. Therefore local open spaces are precious to me.					
24	Langley and Black Parks and the Colne Valley. Walking and cycling and boating.					
25	All of them. For the views, for walking and wildlife. Once we lose them they will never come back.					
26	Black Park, Langley Park, Iver Recreation Ground.					
27	Stay as they are now.					
28	Wood Lane fisheries; Little Britain for cycling, walking dogs and recreation.					
29	Langley Park, Black Park. For Walking					
30	All are important for outside activities and recreation.					
33	Dog walking					
34	For walking - Little Britain, Langley Park, Black Park. For my grandchildren - the play parks in Iver and Iver Heath.					
35	For walking and recreational purpose.					

36	All open spaces are important we have so much pollution from roads and airport
37	All open spaces for walking and general enjoyment
38	parks
39	They are important we don't want to live in a concrete jungle, we love the open space and green belt.
41	All open spaces as I wish to live in a semi-rural environment.
43	Iver Heath fields for walking.
44	Iver Heath Fields, Black Park, Iver Heath Recreation Ground, Langley Park
45	Iver recreation. Walking
46	Iver Heath Fields, Black Park, Langley Park. We use all these open spaces for walking and cycling in.
47	Thorney Park, Canal paths, Ridgeway, Old Bridal paths.
48	Walking
49	Black Park
51	Iver Heath Recreation
52	walking - footpaths and parks
53	Iver Fields for walking.
54	Cycling, walking
55	?? You cannot even walk or cycle on some of the footpaths!
56	Ford Lane to Little Britain, footpaths around Coppins - for walking, cycling. Also fields at the back of Banes Way - cycling and nature watching.
57	Iver Heath Fields and Hardings Row fields
58	Langley Park, Black Park.
59	All existing parks obviously or any wild life nature areas.
60	I use Black and Langley Parks for walking. Iver Heath Rec for exercise.
61	All of them. We are villages who should have green spaces
62	Langley Park, Black Park for walking
64	Walking & Cycling
65	Richings Park Sports Club, Iver rec, proposed play area for young children in Richings Park. Fields between R.P and Langley
66	The Parks - Black and Langley, and rest of Colne Valley Park.
67	Heath Fields and Hardings Row for walking
68	Little Britain - walking; Black & Langley Parks, Slough Arm of canal for walking.
69	All other spaces are crucial to the local people. We live in the country side not a metropolis.
70	Public right of way - walking, running, cycling. Parks for children, wildlife.
71	Black Park, Langley Park.
72	No comment
73	Iver Heath Fields - walking.

74	Pinewood Studios are busy industrialising former green belt so open spaces is no longer available for me or wildlife.
75	Iver Heath Fields for walking and downtime, also for dog training
76	All
78	Black Park, Langley Park, Iver Heath Recreation.
79	All open spaces
80	cycling and walking
82	Richings park has a village feel to it that we wish to keep. Including greenery, trees, no HGVs, no large developments, quiet rural area for walks
83	open space eg the park and the recreation ground is limited. Leave the open space
84	Iver Heath Recreation Ground, Iver Recreation Ground, Langley Park and Black Park. All for walking and picnics.
85	Iver Heath Fields, Iver Recreation Ground, land near Coppins.
86	Around Coppins and St Peters Church, Black/Langley Park/Iver Rec. Public footpaths by Colne and also down at Thorney (used to be a public access opp. North Star pub)?
87	All of them, for wildlife, walking and just relaxing with nature on your doorstep.
88	Love to cycle so more cycle lanes would be great in the area.
89	I'm out walking everywhere plus Langley and Black Parks.
90	Old Mill Lane area provides recreational infrastructure not available elsewhere.
91	We moved here 29 years ago to be nearer the countryside, it is gradually disappearing
93	Black Park, Langley Park, Little Britain, Iver Rec, Iver Heath Fields. Important for beauty, walking, picnics, family and pets. Lovely.
95	All - Walking
96	Iver Heath Fields - black Park - langley park
98	All - for cycling, walking and to keep the area beautiful (Black Park, Langley Park, fields, any open space).
99	All of them. E.g. for cycling, walking, fishing and seeing the sky
100	LANGLEY PARK, BLACK PARK WE WALK REGULARY HERE. Recreation Grounds for the YOUNG CHILDREN.
101	The Park is important to keep as everyone can use it for various things.
102	Iver Heath fields i.e Pinewood Studios area
103	All areas are important & all around Langley, Black Park, for fishing, cycling and general outdoor activities
104	BLACK PARK/LANGLEY PARK/COLNE VALLEY PARK

105	Iver Heath Fields as above. Langley Park, Black Park both offer space for walking(families) dog walkers, children play areas and general social activities.
106	Langley Park and Black Park for dog walking.
107	Iver Rec and Black Park, Langly Park, Richings Park Pavillion / centre, Iver Fields.
108	They are all important so that the people who live within the area can enjoy walking & cycling.
109	Black Park, Langley Park, Denham Lake Park
110	ALL OPEN SPACE IS IMPORTANT FOR EXACLY THAT. OPEN SPACE VIEW OF LAND/GREEN.
111	ALL OPEN SPACES ARE IMPORTANT TO SOMEONE
112	Black Park & Langley Park
113	Back & Langley Park, Iver Heath Rec
114	LAKES IN RICHINGS PARK, IVER REC WALKS. FIELDS OPPOSITE THE POYNINGS - OPEN, FRESH SPACE FOR WALKS, WILD LIFE , CROPS.
115	Recreation Grounds and Childrens Play area. Our future depends on our young
117	Black Park, Langley Park Iver Fields
118	LANGLEY PARK, BUT IT IS DISGRACEFUL THAT WOOD LANE IS NOT MAINTAINED - YOU CAN NO LONGER USE THE FOOTPATH AS IN SOME PLACES IT IS OVERGROWN - THERE IS ONLY ONE FOOTPATH - THE FOOTPATH IS DANGEROUS ! NEEDS SORTING OUT BEFORE THERE IS AN ACCIDENT - PEDESTRIANS ALMOST HAVE TO GO ONTO THE ROAD.
119	All are important . I am a walker and use all of the open spaces in the locality. If they were to disappear I would have to drive further a field having an impact on the environment with regards to pollution from my car etc.
121	Iver Heath fields Langley Park, Iver Lakes for the fishing Black Park
123	Walking and enjoyings open spaces to see grassland, trees, bushes.
124	ALL OPEN SPACE IN THE IVERS ARE IMPORTANT FOR WELL BEING.
125	Iver Heath Fields for Walking. My grandchildren also cycle (they live in Iver) kite flying, Dear and Bird watching.
126	OBVIOUSLY BOTH LANGLEY PARK AND BLACK PARK, IVER REC, AND SURROUNDING GREEN AREAS. IUSE THEM ALL FOR RECREATIONAL ACTIVITIES, ALONG WITH MU DAUGHTERS.
127	THE LAND SOUTH OF IVER VILLAGEhas always been used by the Villages but has no infrastucture Perfect for a developed open space
128	IVER HEATH fields are important - I use these fields 3 times a day for dog walking.
129	Iver Heath Fields Walking, dog club, public meetings area

130	Richings Sports Park, Iver Recreation Ground. Opposite North Star, Wood Lane Lakes, Black/Langley PARKS.
131	ALL ARE IMPORTANT
132	Thorney Lake/Park. Walkers/dog walkers/Fishermen. We are frequent walkers
133	All general resevations & well being.
134	IVER HEATH FIELDS. WE MOVED SO THAT WE HAD THE OPEN SPACE AT THE Bottom of our GARDEN. WE WANTED FRESH AIR, PEACE AND NATURE IN OUR LIVES. WE WANTED VILLAGE LIFE.
135	IVER HEATH FIELDS OPEN SPACE FOR PEOPLE
136	IVER HEATH FIELDS BLACK PARK & LANGLEY PARK IVER RECREATION & IVER HEATH ALSO. USED FOR ALL TYPES OF RECREATION ACTIVITIES.
137	Iver Heath Fields, Iver Heath/Iver Rec. Open space around the area for safe walking, cycling & exploring nature with children.
139	Black Park & Langley Park
140	LANGLEY & BLACK PARK IVER RECREATION AREA
141	Cycling + walking. Love the Lake too - as we have young children.
142	All, for walking and exercising dogs
143	CANAL PATHS - WALKING.
145	Black Park & Langley Park. Iheath Recration Ground for walking.
146	THORNEY PARK HAS ALL THESE FACILITIES
147	Black Park, Langley Park, Grand Union Canal, Hardings Row Nature Reserve, Denham Country Park and public footpaths in the Parish of Iver generally,
148	Generally the spaces accessible by ROW, across fields adjacent to Fps 4, 4A,11,26,16,26, 28, 29; BWs 8,9. The canal towpath, FP17, all for walking and some cycling. Sometimes for short cuts to access facilities and for exercise. That many of those paths cross fields giving a different view of Iver is important for a sense of place. Hardings Row for its diversity. Grassed areas at Barnfield, Colne Orchard, Bangors Close, Victoria Crescent, Colborne Close to mitigate for hard surfacing of gardens.
149	LANGLEY PARK, BLACK PARK, DENHAM COUNTRY PARK, IVER HEATH FIELDS, LITTLE BRITAIN LAKES, AREAS OF GRAND UNION SIDE.
150	IVER LANE - WALKING, IVER RECRATIONAL GROUND - PUBLIC PLEASURE, BLACK PARK & LANGLEY PARK - WALKING & PUBLIC PLEASURE

<b>151</b>	All of the open spaces are important to me. Recreation is paramount for everyone especially with government recommendations on exercise, relieving stress etc.
<b>152</b>	A4. Black Park and Langley Park provide excellent recreational facilities. Thorney Park is also useful but under utilised; an improvement would be the re-opening of the car park. The recreational grounds in both Iver and Iver Heath are well used. I use Black Park, Langley Park, Iver Heath Fields and Thorney Park for walking the dog.
<b>153</b>	IVER RECREATION GROUND IS AN IMPORTANT COMMUNITY RESOURCE. YOUNG PEOPLE USE IT REGULARY FOR FOOTBALL ETC. ALSO CYCLING & DOG WALKING
<b>154</b>	Black Park, Langley Park, Iver Heath Fields, Denham Country Park & Recreation Ground. For sport, walking, cycling and other fresh air Activities.
<b>155</b>	The canal towpath and the footpaths that feed onto it. Thorney Park and the footpath links to the end of Old Slade Lane. These are regular walks I take along with friends.
<b>156</b>	IVER FIELDS THE IVER REC LANGLEY PARK WALKING & CYCLING
<b>157</b>	All
<b>159</b>	We walked along the River Colne, and until it was allowed to become over grown along with my friends enjoyed fishing there all across Huntsmoor from Iver Lane down to the Slough Arm of the Canal, unfortunately the Little Britain stretch has become neglected, we still enjoy the walk through to Farlows Lakes, but it is no longer kept in good order along with the footpaths.
<b>161</b>	The open space in and around Swallow Street, particularly the open space surrounding the area that has been recently developed on what's now Colborne Close. Any more development in this area is going to completely change the dynamics of the area for the worse.
<b>165</b>	All existing space is important to the residents. They are currently used by my family for playing, walking, cycling and fishing without these spaces we are confined to indoor activities such a gaming which is not a healthy life style alternative.
<b>173</b>	4. Currently with existing HGV levels, walking anywhere in iver is an unpleasant, polluted and dangerous experience. Further open spaces and paths are overgrown, covered in weeds and full of litter.

<b>178</b>	All open spaces are important for wildlife and for the well being of the community as a whole mentally and physically trees and open spaces improve peoples lives. Small greens are included in this as they allow children to play safely near their homes. Parking on these should be discouraged. I feel open spaces such as recreation grounds should be dogs on leads as have had bad experience with dogs and this puts many people off using open spaces. Plus the mess they often (owners) leave behind carries diseases. Who would want children playing football falling into that! (Iver Recreation ground is a prime example)
<b>180</b>	Children need safe areas to play. Free from dog faeces. Small greens within housing development should be left alone.
<b>186</b>	all of them . I have lived here for 50 years . the roads have got busier and I do not want to see any more congestion . I love the area as it is
<b>189</b>	Iver Heath Fields, Black Park, Langley Park, the footpaths from Langley Park to the canal in Langley, Wood Lane fisheries and Farlows Lake for recreational fishing Walking, cycling, family outings, dog walking
<b>191</b>	All the existing open spaces are important and must be retained for the benefit of the residents and to combat the pollution issues that accumulate from the motorway networks, the huge number of HGVs and the impact of Heathrow. Britain was the first country in the world to recognise the importance of urban green spaces and created the first public parks by connecting business and municipal leaders with the concerns of local communities. Let's not go back on this, it would be a hugely retrograde step that could never be reversed. As populations increase green spaces must be retained for the good of all.
<b>194</b>	Iver Heath Fields, Swan Meadow/Swan Road
<b>196</b>	Recreation ground needs calisthenics equipment as nothing for adults
<b>200</b>	All open spaces are important.
<b>202</b>	Iver rec. I use it regularly for walking, taking children for play and exercise.
<b>204</b>	Walking, family time, cycling.
<b>206</b>	The small park/playing fields up past the doctor's surgery are important to me for dog walking on the occasions I cannot get to Black Park. From a safety point of view the walk way up Thorney Lane towards Iver train station is important to me too. Especially proper footpaths, wide enough for cyclists to pass, and proper lighting in winter/evenings.
<b>210</b>	Langley Park, Black Park, Iver Rec - all for walking, dog walking, cycling

<b>212</b>	Iver Rec, Iver Heath Fields, Black Park, Langley Park, Public footpaths that are within Green Belt areas. Important for Cycling, walking and slightly less polluted air!
<b>214</b>	Colne Valley Park, because it provides and important wildlife habitat. Black Park and Langley Park, important recreational facilities.
<b>218</b>	ALL open spaces are important as they serve to separate The Ivers from our surrounding areas, in particular from Langley, Slough and Uxbridge. I regularly use Black Park (walking, bird watching, photography), the nature reserve at Hardings Close (walking, photography).
<b>219</b>	Black Park, Langley Park, recreation grounds - all good for walking.
<b>222</b>	BLACK PARK, LANGLEY PARK, IVER HEATH FIELDS, IVER REC, COLNE VALLEY PARK
<b>223</b>	Black Park, Langley Park
<b>225</b>	Space between the M25 and Thorney Lane South.
<b>229</b>	Iver Heath Fields for walking. I also have an allotment.
<b>231</b>	The park in the village I visit with my three year old granddaughter . Also visit Black Park with my sons dog
<b>235</b>	Frequently use Langley and Black Country Parks, for hiking
<b>238</b>	All natural areas are beneficial to our health and wellbeing. They are a pleasure to enjoy either walking or cycling. There is already a high volume of traffic through the villages and residents can escape the noise and pollution without having to cause yet more pollution travelling further afield in order to enjoy other rural areas. Green belt land, Black Park, Langley Park, Little Britain, Farlows Lake and the amazing walks along the Grand Union canal and river Colne are all areas to be preserved and enjoyed by the community, as it is for this reason people live in the area.
<b>239</b>	There is a shortage of recreational open space for children in Richings Park. This is a requirement which can be addressed by new residential development providing such play/open space within walking distance of the existing residential area. The Neighbourhood Plan should have regard to the Active Design Checklist by Sport England. This advocates a range of objectives and provides guidance as to how these might be achieved. Key principles include accessible activity for all; walkable communities; networks of multifunctional open space and high quality streets and spaces.
<b>241</b>	All current open spaces for cycling and walking

<b>242</b>	Iver Heath Fields, Langley Park, Black Park. The above are all vital to the well being of residents, their children and their dogs. They offer a safe place unhindered by traffic. Cyclists, runners and horse riders too can enjoy the green spaces.
<b>244</b>	Iver Heath Fields, Black park and Langley Park
<b>247</b>	Langley and Black Parks, the Jubilees River, the canal banks
<b>251</b>	The Colne Valley Walk is very important, enabling access to uncongested pathways for walking and cycling.
<b>252</b>	Thorney Park, for walking
<b>254</b>	Iver Heath Fields, Hardings Row and Swan Meadows. These areas are significant accessible areas for walkers, nature lovers and for informal leisure spaces.
<b>256</b>	Iver Heath Fields, and Gamms Field - they are the only areas of Iver Heath which have been undeveloped and its important to keep them this way, so that residents have somewhere to go for walks, jogging
<b>257</b>	Iver playing fields, Black Park and Langley Park - walking
<b>259</b>	I mostly walk in Iver Heath Fields, but occasionally take in Black Park, Langley Park, or the Recreation Ground in Iver Heath
<b>260</b>	All
<b>262</b>	Black Park - great space for walking.
<b>265</b>	Black Park, Langley Park, Iver heath field, recreation grounds for walking, children having open spaces to use, cycling.
<b>266</b>	Area around Thorney Park and canal walks Langley Park and the Colne Valley
<b>267</b>	Farlows lake for running and walking.
<b>268</b>	All - I enjoy walking the footpaths to see the countryside and to escape the horrendous traffic and run-down High Street. Were I forced to pick one it would be Swan Meadow. Little Britain Lake is also a favourite but that is not within the parish.

269	All green belt areas surrounding Richings Park are valuable in helping to mitigate the effects of air pollution from motorways, the railway, local industry the airport and local roads. We are seeing a rising level of air pollution from increasing HGV and other traffic. They also help to protect our villages from industrial encroachment and retain the semi-rural nature of our areas that we love. We have already seen planning consents for development on our valuable open space eg CEMEX, as well as all the other applications in the pipeline. We are being squeezed from all sides. These open spaces are also great areas for cross country running and cycling - I use the areas around Richings Park frequently for these purposes. Also for: bird watching and picking blackberries, sloe berries and apple. The golf courses at Thorney and Richings Park are used by my family.
270	We use all of the open spaces around Iver for walking on a regular basis. N.B. many of the footpath and route around these spaces are not well maintained and full of nettles.
274	Iver Heath Fields & Iver Heath Recreation Ground are very important to me. We use then for walking the dog, and cycling as a family
276	Iver Heath Fields is very important to me for dog walking and somewhere to take the family. The Recreation Ground is important as a place for children to play, just a shame that it is so often full of litter or youngsters with nothing better to do than stare at you as you try and take the dog for a walk. Black Park and Langley Park are also clearly important due to the facilities and the amount of space it provides for walking and the opportunity to cycle. I'm not aware of anywhere I could, seriously, carry out any boating activity.
278	The Iver Fields this provides a safe environment to walk my dog, watch wild life, meet people, provides a space for football, cricket and other sports. The Iver Heath Dog Club provides training, socializing for dogs which help to make them person and dog friendly.
280	Iver Rec, though it could use some updating and referbishment, especially the empty building with ugly fencing around it. Some new plants etc would make it a lot more attractive
281	I use the recreation ground in Iver village for walking. I also take my grandchildren there when they visit me. It certainly seems to be used quite a but for general recreation, football and there are several OAP events in the Pavilion.
285	Iver Heath Fields, Hardings Row, the two recreation grounds, Swan Meadow, Farlows Lake. All for walking and enjoyment of open spaces for mental & physical well being.

<b>287</b>	Black Park and Langley Park for walking
<b>288</b>	The clump and fields that separate Pinewood studios development form the residential abodes on pinewood green and pinewood close
<b>289</b>	Black Park
<b>291</b>	All of them are important, I want to love the place I live which is proving to be a bit of a challenge lately with all the threats to our Villages. We need to keep all these open spaces for the future generations, a legacy to young people. At the moment I feel it is all under threat from development.
<b>292</b>	Swan Road and neighbouring fields and meadows for the comfortable pasture and pleasure. Black park and Langley park for their activities and beauty. Little Britain lake and the canals for good running and outings.
<b>293</b>	Black Park and Langley Park
<b>300</b>	Multiple - for me it's currently walking or running but would be great if improved to make cycle & horse riding paths.
<b>301</b>	Again Iver Heath Fields. This is a safe enclosed area for people to walk and take their dogs as well as other activities.
<b>306</b>	Langley Park, Green Park and Iver Fields are very important to me, I use one of these places every day for walking my dog and getting some healthy exercise.
<b>307</b>	The Evreham centre in Iver as I use this for the gym, adult learning classes and also my children use the holiday scheme run there by Iver community childcare.
<b>311</b>	Iverheath fields for recreational purposes
<b>316</b>	Iver recreational ground, and any green spaces in and around housing should be retained. The colne valley park. The land around the south of iver railway station south of the Poynings and Thorney lane / Richings way and across to the M 25 should also be protected green belt, as such a close proximity to Heathrow it is already blighted by aircraft noise.
<b>317</b>	Cycling - Family and community activity. Essential for fitness and wellbeing. Also will help to reduce traffic on the roads Walking - Better care of the pavement so that young parent and the elderly can actually walk. The state of pavements in Richings Park is beyond an acceptable level. This needs to be fixed. With this, better street lighting also needs to be updated. Lighting in Richings Park and Iver is horrendous. This prevents young parents and the elderly from walking especially in the winter months.

318	Open space in and immediately around the Ivers are important to me, especially Black Park, Langley Park, Hardings Row Nature Reserve which I mostly use for walking and cycling and quiet
319	Langley Park, Stoke Poges Common
320	Iver Recreational Ground and Market Lane park are both important for local children to play sports outside in safe spaces away from cars
323	Iver Heath Fields
324	Walking is my priority but I do appreciate cycle paths would be good to encourage commuters from the village to cycle to the train station rather than drive.
326	Land between the canal and Iver, if this land is not protected, the Ridgeway Industrial Estate will grow further and results in additional HGV traffic.
328	Evreham playing fields for running and open space for children to play
329	Iver Heath Fields Black Park Langley Park
330	The footpath along the canal, thorny park, dark lowers, little Britain
331	IVER HEATH FIELDS, IVER HEATH RECREATION GROUND AND HARDING ROW. All these areas give locals the chance to walk, cycle and to see wildlife in its natural state.
333	The Iver Heath Fields. For walking, and the exercising of Dogs.
334	Reasons as before, reducing open spaces mean that The Ivers will be absorbed into Slough and Middlesex with no rural boundary.
337	For leisure and sports activities which is imperative .
338	Iver Heath fields, black park and langley park as these are used for various activites
340	Iver heath fields Black park Cycling Walking Running
343	Black Park , Langley park and The Iver Heath Fields are all used by the local community.
344	The following open spaces are Iver Heath fields, Iver Heath recreation ground, Black Park, Langley Park. These are important for relaxation, walking, cycling, enjoying nature and fresh air and having pic-nics amongst other activities.
347	I am very disappointed that the public right of way from the recreation ground, down to the canal and across passed the farms has not been maintained, it is ver overgrown and makes walking an impossibility. Given that this is a public right of way I would be interested to know who is responsible for this maintenance.
351	Iver Heath Fields are used daily by me. Iver Heath Recreation Grounds are used by my grandchildren. Iver Recreation Ground is the home of Delaford Colts which I was involved with for 13 years.

<b>353</b>	Iver Meadow.
<b>355</b>	Black Park, Langley Park, Iver recreation ground for walking and cycling
<b>356</b>	We are blessed with two superb local parks that cater for many rural activities, and a good public footpath system together with the Slough arm of the Grand Union Canal. All of these I enjoy, on foot and bike.
<b>357</b>	Iver heath fields, black park, Langley park. For walking in the main, sometimes cycling. Also for observing wildlife and photography.
<b>358</b>	Iver recreational ground and the open space between Love Lane and Wood Lane. For the Iver recreational ground is the only safe open space for my children to play in. As for the open space between Love Lane and Wood Lane, it is pleasant for walking and seeing the horses.
<b>361</b>	the two country parks Black and Langley, and the open fields that are between Iver/Iver Heath and the M25 off Iver Lane. Iver Heath Fields - all good quality areas of green spaces
<b>364</b>	Land between West Drayton and Richings Park and also the Land to the west of Richings Park to prevent a continuous sprawl between Greater London and Slough.
<b>365</b>	The recreational grounds in both Iver and Iver Heath. These are important spaces for the children of the villages
<b>366</b>	Iver Heath fields
<b>367</b>	Iver Heath Fields for walking ( I use this areas almost every day), Black Park and Langley Park for walking and cycling. Public footpath network for walking
<b>368</b>	Iver Heath Fields, Iver Heath Recreation ground, for walking, cycling for dog walkers.
<b>369</b>	Black park and Langley park
<b>370</b>	The Colne Valley, Grand Union Canal and the conservation areas are all important sites in terms of walking. The local recreation grounds are key assets for exercise and enjoyment and, together, represent one of the few facilities within the Parish for leisure activities that attract young people.
<b>372</b>	The recreation grounds in both Iver and Iver Heath. The Iver Heath fields we use as cut through for cycling and also nice to walk through. All open spaces are important not only for the environment but also to the community, we don't want to look like a concrete jungle and lose our country village image
<b>373</b>	Iver Heath Fields. Walking, enjoying peace, dog walking.
<b>374</b>	Iver Heath Fields, Black Park, Langley Park, Little Brittain, all footpaths and the canal network
<b>375</b>	Black Park, Langley Park Iver Heath Fields.

376	Iver Heath fields. Walking. Black park. Walking Langley. Walking Iver Heath park. Walking.
378	Parks - use almost daily with kids Don't use other areas
385	All
387	The fields behind chequers orchard offer dog walkers open spaces away from children's parks to walk their dogs.
388	Flowerland area.
389	All of them
390	All, the clue is in the name "open" spaces
392	There is a need for the local pavements to be wider as they can be hard to walk with a double buggy. More local parks for mothers to be able to walk too loads of fields no place to take children.
393	ALL OPEN SPACE IS IMPORTANT TO PRESERVE IDENTITY BETWEEN COMMUNITIES.
396	Black Park Langley Park They provide great family friendly facilities and add to the richness of our community
398	cycling and walking as these are every day, accessible to all type activities
400	Langley Park & Black Park. Richings Park Sports Club.
402	Langley Park, Iver and Iver Heath recreation grounds. Land off swan road. Areas for my children to run around and play.
405	BLACK PARK AND LANGLEY PARK - FOR WALKING, DOG WALKING, TAKING CHILDREN TO PLAY, EXERCISE. FARLOWS - FOR FISHING. THE RECREATION GROUNDS, FOR SPORTING ACTIVITIES.
407	Areas north and south of North Park, and alongside Thorney Lane, and the open spaces which are most vital to me, for walking and to help preserve the character of the Parish.
409	Iver rec, land down by richings park.
415	We cycle walk and fish these areas are vital and the reason we moved to Iver in the first place
416	The Country Park opposite the North Star Public House for walking and enjoying nature.
422	Iver recreation ground. For walking, community activities, sports.
429	Walking
431	Iver Heath Fields Black Park - although this is becoming ever more crowded thus losing its appeal.
435	They are all important for me and others to be able to undertake whatever pursuits we like. I personally like walking, running, cycling, and taking the dog for walks.
436	I like to go cycling, walking and running around some of the open areas.

438	Thorney Park, Black Park, Langley Park. For cycling or walking
440	I to be able to walk and cycle to the different areas. I would not want them to be developed.
443	Sports club. Area where family go to spend time.
446	Q4 the Iver Fields because I and a few hundred residents don't have to cross any busy roads to enjoy them. Black Park is not really an alternative as it is quite a distance for me to walk (I'm 71) and it is a very different environment from the fields which are nature at its best. Black Park is "managed" too much to be a "natural" place anymore. Since I have lived here I have taken over 6000 pictures of the fields and none are the same. They are truly unique to all ages.
448	Open spaces in the area which are important to me are the agricultural fields, golf courses and canal walkways in the area.
451	Mainly for walking and cycling safely away from busy roads.
453	Parks, cycling areas
455	The areas immediately around Richings Park are very important to me. I live there and regularly use the area for running, walking and cycling.
457	All open as I do a lot of walking around Iver.
459	Black Park and Langley Park should be retained at all costs The Green fields around Riching's Park and the Ivers should be retained to maintain the village environment.
460	Iver Recreation Ground - space for my children to play, ride their scooters and cycle. Langley Park - walking Black Park - walking Iver Heath Fields - walking The public footpath and fields down Swan Lane - walking.
463	The route along the canal towards Langley is an important cycling route and I would like it to be maintained better.
464	Black Park and Langley Park
465	The pathways between Iver and Langley train station are always overgrown. I run along there and constantly have to battle with nettles coming over the already narrow path. I once twisted my ankle during a run because of this. It's also a shame that the canals feel like no-go areas and it would be great to open them up and make them feel safe for walkers. There also doesn't seem to be anywhere near Richings Park that caters for dog walkers (open fields etc)
466	Black Park, Langley Park, Thorney Park
467	Black park
468	Swan Meadow, Iver Heath Fields, Thorney Park for walking. Kingfisher Garden, Richings Park Residents' Association Garden and other small areas of green space are vital areas for the feeling of well being.
469	Iver Rec, Langley Park, Black Park

471	Black Park, Langley Park, Iver Heath Fields for walking
472	Grand Union Canal and Slough Branch Canal, walks & cycling. Langley Park, walks, cycling & picnics. Iver Recreation Ground could be better developed
475	Langley Park and Black Park both for walking and cycling and general family use ie picnics, play areas etc.
477	They are all important, especially for cycling and walking
479	Cycling
480	The fields adjacent to North spark should remain as green belt. Its part of the break between Slough and a Richings Park. The fields are key to the neighbourhood as it plays a key part to the local environment and the surrounding area
482	I love to run round the fields at the end of old Slade Lane, I took under the motorway and then circuit the lake. I'd be sad to see this go. I will so pick elderflower there every year to make cordial
483	Langley Park, Black Park, Coppins footpath, the field/community area down Swan Lane, the land between the Church and the M25/ brook
485	As a family we go to black park. This is mainly due to parking and having a young family. A facility like this in Iver would be brilliant S
486	Thorney country park for walking
488	Hardings Row Nature Reserve & Iver Heath Fields ; health, environmental, ecological, educational and amenity benefits
489	Black Park and Langley Park as they are good for bike rides and dog walking, it is easy to park and there are nice cafes.
490	We are fortunate to have a number of lovely parks nearby. Black park and Langley park are well maintained, as is Denham, but poor old Thorney Park needs some TLC! These are very important for walking, cycling, fishing. Surely we should be making the best of what we have.
491	As a resident of Richings Park, the open spaces in the vicinity are most important, as it provides for activities such as walking, cycling, but also that space for time out and tranquillity.
498	There are no specific open spaces as all of them are important to support the way of life of the local community. I spend many hours walking and cycling around the local area.
503	Iver heath fields for walking
504	Grand Union Canal -History Langley andf Black Park - Recreation
506	Black Park, Langley Park and Iver and Iver Heath Recreation sites plus Hardings Row Nature Reserve
507	Thorney Park & Footpaths near I walk there 4 times per week

508	Iver Heath Fields
509	Thorney Park
510	Iver Heath Fields
511	Black Park - Langley Park Iver Heath Rec Iver Rec Grounds - Walking and for playgrounds
512	Iver Heath Fields and Black Park and Langley Park - walking
513	Black Park, Langley Park, Colne Valley, Swan Meadow
514	Iver Heath Fields Black Park Langley Park Canal Tow paths
515	Langley Park, Black Park, Iver Heath Fields
516	all open spaces
517	Iver Heath Fields, Black Park, Langley Park, Recreation Grounds
518	Leave them all
519	Parks and playgrounds for children to run around
520	Swan Meadow, Thorney Park, Black Park, Langley Park, Footpaths in the village . Iver Recreation Ground, Tow Path, Footpath from Ford Lane to Little Britain, All for walking with a dog. Evreham.
521	Iver Lane, Wood Lane, Iver Heath. Gerrards Cross has managed to keep a wooded and green halo around its village and so should we.
522	Iver Recreation Ground, Black Park, Langley Park, Denham Country Park for walking and playing. Richings Park Sports Club.
523	Cycling Black Park Langley Park
524	I H Recreation Ground I H Fields For taking my child for walks, better than us polluting environment driving to Black Park or Langley Park and expensive car parks!
525	Black Park, Iver Fields, Langley Park, for walking, picnics and cycling.
526	Walking, cycling, family time. Iver Heath Fields, Langley Park Black Park
527	Colne Valley Park, Black Park, Langley Park
528	All public footpaths, Langley and Black Parks
529	All green open spaces for walking and better breathing
530	Iver Heath Fields - walking Black Park and Langley park
531	Several. Iver Heath Fields, Swallow Street Natural Pond Area, Langley Park and Black Park. I have walked with, or without, a dog in all of these places for most of the time that I have lived here.
533	Iver Heath Fields. Black Park, Langley Park, Iver Heath Recreation Park, Field between Church Road and Pinewood Road which has a public footpath to it. Land behind 43 Swallow Street , Iver Hearth. Walking and horse livery
534	ALL
535	The Rec. Ground, Little Britain and all the lands in the area

536	They are all important as the high volume of traffic and HGVs make cycling and walking within the Ivers very unpleasant and unsafe
537	Langley Park, Denham Park etc. but all open spaces are important to general health and well being
538	Langley Park, Black Park Walking and cycling and wildlife diversity
539	Iver Heath Fields, Black Park, Iver Heath Rec.
540	All open spaces are very important. Semi-rural nature MUST be RETAINED and MAINTAINED
541	I walk to keep fit and love the fact that there are lovely open spaces
543	Huntsmoor area Iver Nature area (Swallow Street) Black Park, Langley Park
544	Iver Heath Fields, Langley Park, Thorney Park, Black Park, Farmland with footpaths to North, South and West of Richings Park. Fields at end of Swan Road, land North of Iver Station, South of Canal.
545	IVER HEATH Fields Very important - Children & Dog Walking community.
547	Iver Heath Fields, Hardings Row Nature reserve with the Area becoming more populated open rural Areas are more important for residents health and well being.
548	Local parks for walking and exercise
553	Answer Iver Heath Fields, Langley Park, Black Park, Iver Heath rec, Canalside and working farms and stables
554	All - the reason for living here is because it has green belt areas
556	Black Park and Langley Park, both recreation grounds and Iver Heath Fields for walking, cycling and well-being
557	Iver Heath Fields for walking. Black Park and Langley Park
560	Answer Iver Heath Fields for walking, wildlife and to act as a carbon sink
561	Answer All open spaces
562	Answer Black Park and Langley Park. They are beautiful, tranquil and priceless
563	Answer Evreham Fields, Black Park, Langley Rd, Iver Heath Fields, any green area with trees etc, Hardings Row nature trail
565	Answer Colne Valley bridle path, dog kennel farm public footpath, Iver rec ground
567	Answer All open spaces as stated
568	Answer Colne Valley, Black Park, Langley Park
569	Answer Black and Langley Park, also Iver Rec as I can just take my kids over and enjoy
570	Answer Yes, walking and exercise. For better environment
572	Answer Iver Heath Fields as mentioned use them for running and walking

<b>573</b>	Answer Langley and Black Park. The Canal region, Iver fields, the Recreation Ground
<b>574</b>	Answer All open spaces are important/ In my case for walking
<b>575</b>	Answer Iver Heath Fields - walking
<b>576</b>	Answer All open spaces existing for walking, fishing, boating, cycling, community functions, gatherings etc
<b>577</b>	Answer All of them. Used for walking and dog walking
<b>578</b>	Answer Richings Park lake (along M4) walking the dog, cycling with grandchildren etc
<b>579</b>	Answer Black Park, Iver recreation ground, Iver Heath fields
<b>580</b>	Appalling state of roads and lack of cycle lanes considerably limit cycling. The area in general is good for walking due to footpaths and parks. <i>Numerous fishing lakes but not much boating.</i>
<b>582</b>	Thorney Park
