Response ID	Are there any buildings, structures or gardens in The Ivers that are not already listed historic assets that you would like to see on a local list and protected by planning policies? If so, please specify exactly which buildings or other features and their location.	Final Result				412
		Blanks	Yes	No	Other	
		184	68	137	23	100.00%
1	Not sure	44.66%	16.50%	33.25%	5.58%	
13	Yes - Heatherden all in Pinewood studios.					
14	EG "Wee Cottage" in Coopers Row! Too late already sold. It's future unknown.					
17	Any that qualify. Already unfortunately under construction. Who grants planning?					
19	All now gone - too late!! Why a hotel in Langley Park?					
21	I do not know which buildings etc are classed as listed					
22	The buildings of the Southern end of Bangors Road South whilst not listed should be in the Conservation Area.					
25	All existing buildings, especially those built pre 1900 should be protected.					
34	The Swan, The Bull, The Old houses opposite the church; the cottages behind The Swan; Bridgefoot; Needham Lacy in Swan Road.					
45	Leave them alone					
55	Iver Recreation, Iver Heath Recreation.					
56	What are the current listed historic assets and what are the criteria. Not enough information given to be able to comment!					
61	Yes - Stag and hounds, Whip and Collar, The Swan, The Bull. They are all part of the history					
66	St Peter's and St Margaret's churches and older buildings scattered in all 3 areas (Iver, Iver Heath and Richings) - eg tall house by bridge in Iver and several properties in Iver High Street, etc.					
68	Huntsmoor Park.					
69	Yes but too many to mention.					
70	Some properties are poorly kept. Fencing boundaries. The old Mortuary in Iver has had boundary removed and looks terrible.					
75	The totem pole on Crooked Billet roundabout needs more recognition, celebrating 100 years of scouting					
78	None other than Black Park and Langley Park. Parts of Pinewood Studios and gardens.					
86	no - not well enough informed					
93	The big manor houses, like Coppins etc.,					
97	Richings Park shops in Bathurst Walk.					
98	Barnsfield and Evreham Green SL0 0AH; Fields between M25 and Bangors Road. Not sure of exact location.					
100	THE BULL PUB					

105	Iver Flowerland, Iver Heath Fields, Langley Park and Black Park.
111	AS WITH Q5 DO NOT KNOW ALL OF THE PARISH
115	Without knowing which are listed already - impossible to say.
116	Q.9 Victorian (Terraced) Houses on High Street.
121	Iver Heath Fields
123	The Houses, Richings Park
130	Iver High Street, including "the Swan" and the "Bull" St Peters & St Leonards.
131	DON'T NOW
132	Richings Park, Sports Club, Essential open space.
133	Stag and Hounds public house - Building and gardens.
137	Royal British Legion Iver Heath.
139	If not already listed - the original front gates of Pinewood Studios.
147	In Iver Heath, The Stag & Hounds pub, The Black Horse pub, the Library, Village Hall and schools should be protected by planning policies. In Iver, the Village Hall, old houses in the High Street and the area around the Red Lion pub in Shreding Green should be protected.
148	There is some original ironwork, mainly railings, on some Victorian properties. These should be noted and preserved in situ if possible. Catalogued if necessary before removal. The design of some is similar though at different properties, mainly in Iver and Iver Heath. May be an indication of past local industry. The last remaining building of the first school in Iver Heath is in Coopers Row and recently sold. Stag & Hounds Pub
149	LOCAL CHURCHES AND THE OLDER PUBLIC HOUSES. HAVE NO KNOWLEDGE OF LISTED PROPERTIES IN THE AREA.
152	A9. I do not know what are "the already listed historic assets", so I cannot answer this question. It would be beneficial for the list of assets to be published on the Ivers Parish Council website.
173	Yes. I would like you to protect the Iver Conservation Area. Protect it from current HGV and vehicle volume s, and future volumes driven by housing and office developments planned in the area (especially if the Thorney lane Business Park development goes ahead).
178	Kingsway alley way First school and its front garden and trees Junior school The Bull The chequers The red lion All Greens

189	No point - if someone has enough money or time they just do what they want to our older buildings and gardens and worry about the consequences after (which then costs us the taxpayer when the Council takes them to Court and always loses).
191	The Iver Village Conservation Area is blighted by HGV traffic and should be better protected from it. There is no real way of knowing what damage is being done to the historic buildings around St Peter's Church but given the state of the drainage systems it is highly likely that the HGV traffic is causing harm. There should be a 7.5T limit for 50m in each direction from the Swan roundabout. I would like to see Iver Recreation ground better protected from development.
196	Protect The Green Barnfield
200	Would have liked to see a list of those already on the list.
206	Not sure if The Swan pub is protected but it should be. And the church on the corner (I think St Peters).
210	I don't think there is anything in Iver that warrants this kind of support. Specifying (as a non-specific example) that a 200-year old building and it's 5 acres of surrounding grounds be kept exactly as is for the sake of some nostalgic viewpoint or because someone vaguely famous stayed there once is not a sensible use of the land
251	The environment around Richings Park is changing beyond recognition - if this does not stop the area will change completely. Every bungalow which is sold is being demolished and a much larger property constructed (this also applies to the 3+ bedroom houses). The estate suffers major problems as a result of this - parking, grass verges destroyed etc. Far too many house 'extensions' are allowed, with very little control of size, shape or visual suitability. The increased size of the property is leading to more cars and road congestion; this coupled with the increased parking from commuters at Iver Station has resulted in the bus service being rerouted. Many of the older residents are becoming depressed by the "state of the place".
252	I have no views on this.
254	Yes - I would want Iver Heath Fields to be recognised as the last remaining area of the original heath and for it's position between two areas of ancient woodland.
256	Gams field, and IverHeath Fields
268	As I have not seen the list of historic assets I am unable to comment

280	The High Street period properties should be protected. This will help to alleviate issues in the area due to any protection they may be given.
285	Brackenwood, Pinewood Road
287	I don't feel Iver has any buildings to be proud of
288	All land, churches etc should all be protected,. This is not just about physical buildings
291	I think some of the original houses in RP should be listed, there are very few original bungalows left now. They are looking to knock one down to build flats.
306	I think a lot of the houses in Richings Park that are being demolished and re built should be more in keeping with the surrounding properties.
307	Again as previously mentioned the Evreham centre and Evreham sports centre as these are the only facilities within the area for adults and the elderly.
311	the swan in iver
316	Most of iver high street has a number of significant older dwellings and these should be retained. The character of the village needs to be kept. The church. The Swan pub - the Bull, although closed, needs not to change as it is a landmark of the village.
318	Yes. Iver Heath Workhouse, 14-16 Coopers Row, Iver Heath, SL0 0HW. This building is an important historical structure dating back to the 1800's. It is characterful and a pleasant looking structure which may be an risk of development in coming months and possibly lost forever! Also, we have lost so many public houses to housing development. These can often be the hub or focal point of a community. I strongly believe what remains in this area should be protected
320	No. There quite a few in the area and I can think of none that need to be added to the list.
331	IVER HEATH FIELDS.
361	planning policies need to be sensible to keep the character of the community as it should be and is
367	I do not know which buildings, structure etc are categorised as listed historic structures so unable to answer
370	None that come to mind. However, preservation of our cultural heritage through these buildings is of fundamental importance and any development should not threaten their integrity or the context of their location.

372	I'm not sure what is listed but believe the following should be: Iver Middle/Juniors school The Bull and the parade of shops to the left (as you look at the Bull) The Swan Black Horse Church and hall - which I am guessing are on the list - this is for all 3 in The Ivers
373	Iver Heath fields, oh no wait...
389	I'd like to see Iver and in particular, Richings Park protected from any development
390	Unknown
392	None I know of
393	I HAVE INSUFFICIENT KNOWLEDGE TO ANSWER THIS QUESTION, BUT I EXPECT THE COUNCIL TO PROTECT AND PRESERVE ALL IMPORTANT BUILDINGS.
398	Iver Heath Fields last remaining publicly owned and accessible fields / heath in the area. This is the Heath in Iver Heath and as such is of historical importance to maintain
407	I don't know the protection status of the shops in Richings Park; they are an essential part of the character of the neighbourhood, and if they are not protected, they should be.
415	The views coming into to iver from motorway bridge of the Church etc. The Narows and walls of Bangors road south.
431	See answer to Q7 - Pinewood Studios historical buildings and Pinewood Close which has a specific character.
446	Q9 The Coach House and Stables in Pinewood Studios a significant add-on to Hetherden Hall (already listed) and until Pinewood Studios tried to remove them there are/were bats in the clock tower.
448	I believe Thorney House in Richings Way, Iver, is already on the list. I'm not sure about St Leonard's Church, Richings Way Iver, The Swan pub in Iver High Street and the Tower Arms pub. I discovered an intact WW2 pillbox structure along the Grand Union Canal where the canal meets the river between Iver and Slough. This is a wonderful piece of our local heritage and should be preserved.
468	Shops in Richings Park, old cottages on the High Street, landscape at Richings Park Golf Club, Iver Heath Fields,
469	Any historic building should be protected...
472	I'm not aware of what is currently listed so can't comment.
482	Both Saint Margarets, Saint Leonards, and St Peter's churches? I'm guessing that they might already be listed?
485	I'm not aware of what is already listed so need to research

488	No. Perhaps woodland in private ownership should be included here i.e Pinewood Road where recently many trees have been removed
491	The area I would like to see preserved is the Richings Park Villager parade of shops. From the design of the buildings to the copper faced lamp post heads..
498	No, if not already listed then I believe that all current building and structures should be assessed for current usage and look at compulsory redevelopment where the structures are not utilised. You can walk down Iver High Street and see buildings such as the old bank which have been left empty for years.
512	Pinewood Close
514	Coppins & Bridgefoot, Bangors Road South, Iver Lane
515	Iver Village School High Street
517	Wood Lane House as home of artist Paul Nash
531	Not known to me but this does not mean that they do not exist. I would hate to support a policy that continues to demolish lovely old houses. Here in Iver Heath, over the years, we have already lost quite a few in this manner.
534	SALTMARSHE, MEADOW COTTAGE AND LONGRIDGE. THE GARDENS PROVIDE HUGE HABITAT DIVERSITY. MATURE GARDENS LINKING OTHERS. OLD FRUIT TREES. -BATS - HEDGEHOGS - GREY WAGTAILS - OWLS - SPARROWS - PYGMY SHREW - VARIOUS BUTTERFLIES - STAG BEETLES. No ecological survey to find out what is living there prior to planning being granted. no notice erected to let locals know planning had gone in, so no ability to object!
539	Iver Heath Fields The Clump (on Pinewood land)
544	Tower Arms The Bull Several properties on Swan Road Bridge foot
563	Answer The Bull public house, houses (historic houses) on north side of High Street, Houses in Wood Lane (e.g. no building flats after demolishing these).
565	Answer gardens junction of Wellesley Ave and Bathurst Walk SL9
576	Answer Can't think of any personally, however take advice from conservation groups to add new listings as appropriate
579	Answer St Peters Church, Iver
