

# Iver Heath Allotments Proposal for Amending Plot Layout

## 1.0 Introduction

Plots 9 and 10 have recently been vacated. During a recent visit a neighbouring plot holder reported that plot 10 is mostly shaded by the tree and hedge line which runs along Slough Road and plot 9 suffers flooding on its boundary with the path (between plots 11/12 and 9).

Current layout:

## 2.0 Budget

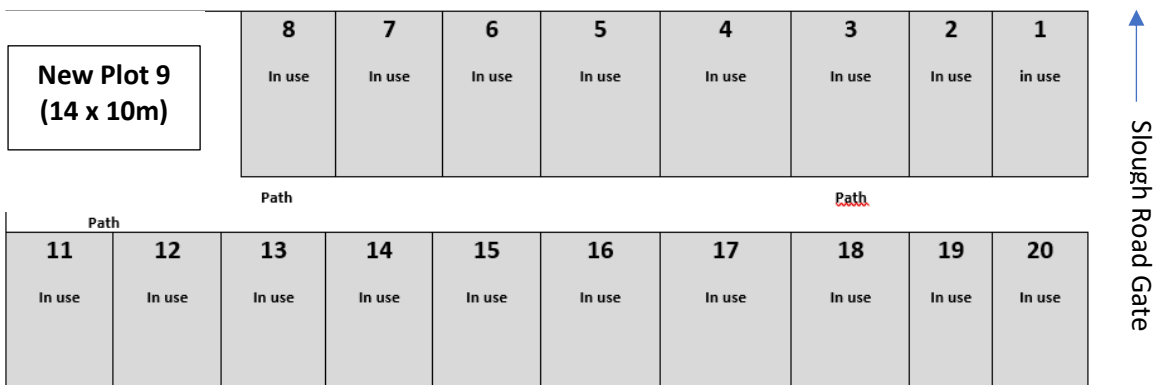

Plots 9 and 10 are size 1.5. Each can be rented for £45 per year, plus a water contribution of £9.68.

The total annual income from both plots is £109.36.

## 3.0 Recommendation

To alleviate the difficulty of working a shaded or flooded plot, I recommend that one double size plot is created.

Proposed layout:

The total annual income for 1 double plot would be £72.90 (£60 rent, plus a £12.90 water contribution). At the current rate, this represents a reduction in income of £36.46 per year.
