

## **RUBBISH & DOG WASTE BINS**

### **1. Background**

The Parish Council, through the Open Spaces & Highways committee is responsible for the provision of all 'street assets' including dog waste bins on the highway and rubbish bins on our open spaces including our Recreation Grounds. Maintenance of these including the emptying of general waste teams is managed by the Deputy Clerk via the Grounds Maintenance Team.

### **2. Rubbish Bins**

The Parish Council is responsible for the provision and emptying of bins within our Open Spaces. Rubbish bins are checked and emptied by the Grounds Maintenance Team on a daily basis including weekends with the start of the provision of a weekend caretaker role in September 2021. This including litter picks and play area checks mitigated an identified health and safety risk when not checked at weekends.

We have experienced during the late summer / early autumn months many instances of foxes scavenging the bins for food waste and making considerable mess around the bins and creating extra work for the Grounds team. The bins are old, some 'uncovered' and are at 'end of life.'

Therefore it is proposed to replace all **five** bins at Iver Recreation Ground in this financial year and to do the same at Iver Heath Recreation Ground where **four** need replacing in 22/23. The new bins will be covered to limit access to foxes and lockable from a security / health and safety perspective. Bins will be secured in place by our Grounds Maintenance Team.

### **3. Budget Consideration & Costs**

The budget for the financial year 21/22 is £1,000 with no spend year to date. This budget line is for Rubbish Bins and Dog Waste Bins.

## Rubbish Bins:

Home / Special Offers / Eco Recycled Hooded Top Litter Bin - 90 Litre

Eco Recycled Hooded Top Litter Bin - 90 Litre

*(Includes plastic liner insert, lock and Ground Fixing Kit)*

Cost per unit = £129.51 – **Total cost £647.55 ex VAT**

#### 4. Recommendation

To replace five rubbish bins at Iver Recreation Ground at a cost of **£647.55** ex VAT.  
Supplier: The Bin Shop [www.bin-shop.co.uk](http://www.bin-shop.co.uk)

The Rubbish Bins are currently on a 10-14 days delivery with the Dog Waste Bins currently at a 6-8 weeks lead time but this will be confirmed on ordering.

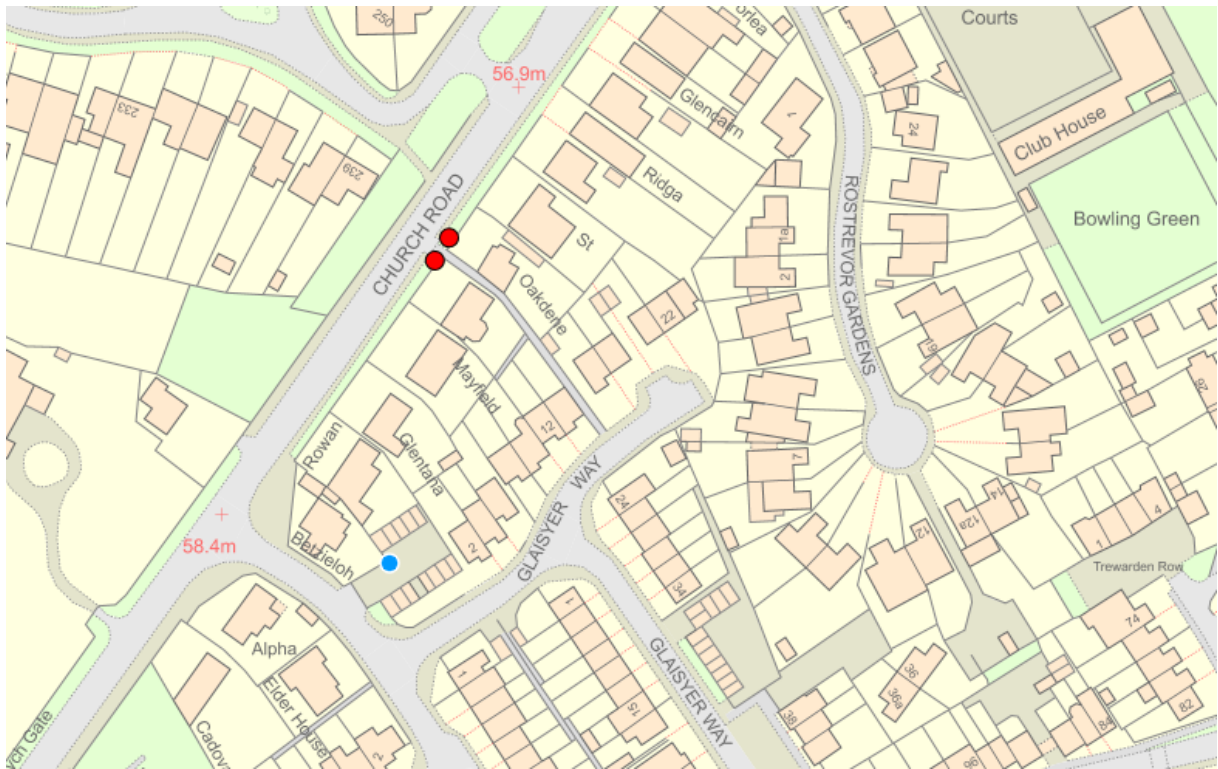

#### 5. Dog Waste Bins

The Parish council is responsible for the provision and condition of Dog Waste Bins with the responsibility of emptying being that of Bucks Council – Waste Team. In order to install a new bin agreement needs to be sought in terms of location by Bucks Transport and then the waste contractor to ensure the bin is in easy reach of the road for collection purposes.

The two potential locations have been identified to Bucks Waste team for consideration for installation of new dog waste bins.

#### Proposed locations

**(1) Top of the Alley Way from Glaiser Way to Church Road, Iver Heath (two possible locations)**

**(2) Evreham Road Junction with Bangors Road South, Iver Village**
