

## SPEEDWATCH EQUIPMENT & VASS PURCHASE

Appendix 5

### 1. Community Speedwatch

The following approved equipment has now been purchased by the Parish Council for loaning out to registered Community Speedwatch Teams including the Iver Community Speedwatch:

- Speed Detection Equipment – Bushnell Speed Gun – point and shot
- Tally Counter
- 3 x Hi vis jackets (size L) with the option to acquire size XL if required

Having liaised with the Thames Valley Speedwatch Co-ordinator, the following process is in place with regard to the use of equipment.

- The Community Speedwatch (CS) Co-ordinator will liaise with the TVP Co-ordinator to log their activity at one of the approved locations and to 'book' the use of the equipment.
- The CS Co-ordinator will liaise with TIPC Officers to confirm that the activity is logged with the TVP Co-ordinator and to book use of the equipment.
- TIPC Officers will liaise with TVP to confirm.
- The equipment will be available to the Community Speedwatch Team 'hiring' it on the day of the activity with the equipment being returned immediately after the activity period.

### 2. Community Speedwatch Signage

The Deputy Clerk met virtually with the current co-ordinators to discuss the provision of permanent signage at entry points to the parish on major roads.

**The meeting is asked to consider affixing permanent TVP approved signage size 600mm x 150mm on medium and large gates at the entry points to the parish boundaries.**

The signs can be installed by the Parish Council team.

### 3. VASS – Vehicle Activated Signs

The July Committee meeting agreed a spend of £6.5k on VASS equipment from the Highways Project budget and actioned the Deputy Clerk to proceed.

On further research, a cost effective product was identified and with the additional peripherals at a cost of £4,050 from Messagemaker (Stocksigns Ltd).

There are a number of options available:

SID – Speed indicator Device (Displays the speed of the approaching vehicle)

SLR – Speed limit Reminder (Displays the speed limit which can be set as appropriate)

SAM – Smiley Activated Sign (Displays the speed of the approaching vehicle and indicates a 'smiley' as appropriate).

These 3 options are all priced the same.

**The meeting is asked to consider which of these three options is required so the Deputy Clerk can procure as appropriate.**

The lead time on delivery is estimated at 7 days.
